

It's possible to install the rail on a curve

# MINI RAIL

*Non-structural rail for cladding and soffit applications*

## TECHNICAL CHARACTERISTICS

<b>Rail material</b>	Aluminium 6060
<b>Rail finish</b>	Black paint
<b>Clip material</b>	Polyoxymethylene (POM)
<b>Rail weight (including clips)</b>	+/- 0,383 kg/ml
<b>Maximum length</b>	1984 mm
<b>Pull-out strength of the clip on the rail</b>	150 to 250 kg, for two fixing points (depending on the type of board)

### Attention: profile not compatible with dismantling keys

- Very thin profile
- Easy, quick and comfortable to install
- Industrially pre-clipped rail for perfect drainage lines
- Each board can be removed individually with special keys adapted to the width of the board
- Rail can be cut to length
- No contact between the boards and the aluminum rail for better air circulation
- Invisible fastening
- Simple, quick and comfortable installation
- Endless possibilities
- 100% recyclable
- References made to order
